To the Kitchen Experts of California Team

Bill and I would like to gratefully acknowledge the superb job you did with the remodeling of our 45 year old kitchen earlier this year. Not only did you do a beautiful job and exceed our expectations on what could be accomplished for such an affordable price, but you accommodated our changes in cabinet placement and window placement. Your team of craftsmen also provided the beautiful crescent shaped granite bar that has become a focal point in our home.

Beyond your skillfulness and attention to detail, you also completed the project on time. We had postponed doing the kitchen remodel due to the horror stories heard from friends about overruns on costs and time. We are so happy that our project was completed on time and on budget.

Being a manufacturer and product manager, I understand the importance of satisfying the client, and I'd say you certainly did exactly what you said you would and we appreciate it. We would recommend your company and your team to anyone considering such an endeavor.

Thanks for working with us and helping to provide a kitchen that suits our aesthetic values and works so well with our lifestyle.

Sincerely

Sandy Hunter

Concord, CA
