To Whom It May Concern:

Kitchen Experts recently completely remodeled our kitchen and family room. They did a beautiful job. We love our new kitchen and get many compliments on it. The construction workers were easy to work with and showed pride in their workmanship. The remodel was done quickly and any questions or concerns that we had were dealt with to our satisfaction.

We were pleased with the service we received from Kitchen Experts from the beginning of the process when we met with the salesman to the final walkthrough of our completed kitchen. We would not hesitate to recommend Kitchen Experts.
