Dear Kitchen Experts Crew,

My family left last night after visiting to see my new kitchen remodel and I just wanted to send a quick note.

The people that worked on my kitchen were very professional, neat and kept me informed on what was happening.

I especially was impressed with Constantine (Hope I spelled that correct). He was meticulous in his work.

Also Daren. He was very knowledgeable of everything to satisfy me.

Every one that worked on this project was willing to do anything to do anything to satisfy me.

I am very happy with the workmanship and the project on the whole.

I do not know what else to say except that is I was going to do it again, I would definitely go with Kitchen Experts.

Thank You for a job well done

Jim Huckestein
